

PROJECT DESIGN PHASE-1

SOLUTION ARCHITECTURE

Date	05 October 2022
Team ID	PNT2022TMID23145
Project Name	PERSONAL EXPENSE TRACKER

Solution Architecture

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

1. Find the best tech solution to solve existing business problems.
2. Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
3. Define features , development phases , and solution requirements.
4. Provide specifications according to which the solution is defined , managed, and delivered.
